

NOTS:

- 1- Insulation for tank shell from the top of lower skid ring to the top and the top cap
- 2- Insulation for drain sump
- 3- Alkaline resistant liner for all wetted parts
- 4- Insulation cover is AISI 304 and is welded to the body Using E309L-16 electrodes
- 5- After tank intallation, outside the base frame must be insulated
- 6- The insulation should be covered with 2 mm SS 304 plate
